

# AQUAGUARD™

## POOL ALARM SYSTEM

Performance, Reliability, Ease of Use

- Best Consumer Installed Pool Alarm
- Superior Detection & Reset Time
- Meets AFNOR Standard for High Wind Immunity
- Visual & Audio "Arm/Disarm" Indicators on Main Unit & Wireless Remote
- Includes Convenient Wireless Remote to Arm/Disarm System
- Easy Installation
- Manufactured to the Highest Quality Standard (ISO-9001)
- Three-Year Warranty

Sleek European design, unique features, and high reliability to protect your children or grandchildren. One system provides complete coverage for an average size pool (32' by 16'). For larger pools, an additional unit can be added. Both are controlled by a single remote.

AquaGuard™ was originally designed to meet Europe's toughest certification requirements for pool alarms; AFNOR Certification. The system is the performance leader and favorite for consumer installed pool alarms.

ASTM  CE

# Pool Alarm Systems Comparison

	PoolGuard®	AquaGuard™	SonarGuard®
Detects when a child or pet falls in pool	X	X	X
Typical detection time in standard pool (32' by 16')	7 to 15 sec.	6 to 13 sec.	1 sec.
